Tel: 011-24695368
Dated: 14.10.2019

To

M/s Vital Steel Bars LLP,
Village Budhewal, Chandigarh Road,
Ludhiana- 141112
Punjab.

Subject: - Expansion of Rolling Mill Capacity (23,100 TPA to 2,24,400 TPA) and augmentation of integrated melting (26,400 TPA to 2,31,000 TPA) located at Budhewal road, Tehsil & Dist.- Ludhiana, State Punjab by M/s Aarti Impex – transfer of Environmental Clearance to M/s Vital Steel Bars LLP regarding.

Sir,

This has reference to your online application for transfer of environmental clearance of the project mentioned in the subject vide proposal No. IA/PB/IND/103601/2019 dated 26th April 2019.

2. M/s Aarti Impex, was accorded Environment Clearance for steel plant vide letter F.No. 11011/49/2017-IA-II(I) dated 8th April, 2019 for Expansion of Rolling Mill Capacity (23,100 TPA to 2,24,400 TPA) and augmentation of integrated melting (26,400 TPA to 2,31,000 TPA) located at Budhewal road, Tehsil & Dist. Ludhiana, State Punjab.
3. The project was sold to M/s Vital Steel Bars LLP by business transfer agreement on 23.07.2018.
4. M/s Aarti Impex, transferred all its assets/premises/approvals to M/s Vital Steel Bars LLP for manufacturing of mild steel products. No Objection was submitted by M/s Aarti Impex vide letter even no. dated 10.04.2019 to transfer Environmental Clearance.
5. M/s Vital Steel Bars LLP submitted Undertaking certificate and agreed to comply the conditions stipulated in the Environmental Clearance.

6. Certificate of Incorporation of M/s Vital Steel Bars LLP issued by Registrar, Chandigarh, Ministry of Corporate Affairs on 11.07.2017.
7. After taking the aforesaid facts into consideration, it is noted that the project mentioned in the subject was purchased by M/s Vital Steel Bars LLP and consequently, ownership on the project was changed. Therefore, considering the request of M/s Vital Steel Bars LLP, the Ministry hereby has decided to transfer the aforesaid Environmental Clearance issued to M/s Aarti Impex, under the provisions of para 11 of EIA Notification, 2006.
8. It is requested to obtain 'consent' from the concerned State Pollution Control Board in the name of M/s Vital Steel Bars LLP
9. In case, there is a change in the scope of the project, fresh Environmental Clearance shall be obtained under the provisions of EIA Notification 2006.
10. All other terms and conditions in the Environmental Clearance issued vide letter dated 08.04.2019 shall remain unchanged.

This issues with the approval of the Competent Authority.

(A.K.Agrawal)
Director

Dated: 08.04.2019

To,

M/s Aarti Impex
300 Sita Nagar, Near Bus Stand,
Ludhiana, Punjab-141001.

Subject: Expansion of Rolling Mill Capacity (23,100 TPA to 2,24,400 TPA) and augmentation of integrated melting (26,400 TPA to 2,31,000 TPA) located at Budhewal road, Tehsil & Dist.-Ludhiana, State-Punjab by M/s Aarti Impex- Environmental Clearance regarding.

Sir,

This is reference to your online application vide proposal no. IA/PB/IND/62247/2017 dated 15th September 2018 along with copies of EIA/EMP report seeking environmental clearance under the provisions of the EIA Notification, 2006 for the project mentioned above. The proposed project activity is listed at Sl. No. 3(a) Metallurgical Industries (Ferrous and Non-ferrous) under Category "A" EIA Notification, 2006 and the proposal is appraised at Central level.

2. The application of M/s Aarti Impex located in Village Budhewal, Tehsil Ludhiana East, District Ludhiana; State Punjab was initially received in the Ministry on 3rd February 2017 for obtaining Terms of Reference (ToR) as per EIA Notification, 2006. The project was appraised by the Expert Appraisal Committee (Industry) [EAC(I)] during its 16th the meeting held on 6th-7th March 2017 and prescribed ToRs to the project for undertaking detailed EIA study for obtaining environmental clearance. Accordingly, the Ministry of Environment, Forest and Climate Change had prescribed ToRs to the project on 27th March 2017 vide F.No. J-11011/49/2017-IA-II(I).
3. The project of M/s Aarti Impex located in Budhewal Village, Ludhiana East Tehsil, Ludhiana District, Punjab State is for Expansion of total production capacity from 21,000 MTPA to 2,24,400 MTPA of rolled products and augmentation of integrating melting from 26,400 MTPA to 2,31,000 MTPA. The proposed capacity for the products is given below:

Name of unit	No. of units	Capacity of each unit	Production capacity
Induction Furnace (melting capacity)	2	50 MT/heat (Combined)	700 TPD
Rolled products	1	--	680 TPD

4. The total land required for the project is 3.931 ha. No forest land involved. The entire land has been acquired for the project. It has been reported that no water body/ water body exist around the project and modification/diversion in the existing natural drainage pattern at any stage has not been proposed.
5. The topography of the area is flat and reported to lies between 30053'22.30"to 30053'25.86" N Latitude and 75059'22.10"to 75059'38.55"E Longitude in Survey of India Toposheet No. 44N13, at an elevation of 254 m AMSL. The ground water table reported to ranges between 2.89 to 27.30 meter below the land surface during the post-monsoon season and 4.32 to 31.22 meter below the land surface during the pre-monsoon season.
6. No National Park/Wildlife Sanctuary/Biosphere Reserve/ Tiger Reserve/ Elephant Reserve etc. are reported to be located in the core and buffer zone of the project. The area also does not report to form corridor for Schedule-I fauna. No Schedule-I species is found in the 10 km radius of the project site.
7. The process of project showing the basic raw material used and the various processes involved to produce the final output, waste generated in process.
8. The targeted production capacity of the MS rolled product is 680 TPA. MS scrap, MS Billets will be used as basic raw material to manufacture rods and wire rods. Raw materials will be purchased from market and transported to site through trucks.
9. The total fresh water requirement of the project is estimated as 150 m³/day, which will be sourced from the Borewell. The application for permission for drawl of groundwater has been submitted vide application no. 21-4/3993/PB/IND/2017.
10. The power requirement of the project is estimated to be 27680 KW; the permission has been obtained from the Punjab State Power Corporation Limited.
11. Baseline Environmental Studies were conducted during Pre-Monsoon season i.e. from March to May, 2017. Ambient air quality monitoring has been carried out at 8 locations during 8th March to 5th June 2017 and the data submitted indicated: PM₁₀ (45.01 µg/m³ to 77.39 µg/m³), PM_{2.5} (28.37 to 56.59 µg/m³), SO₂ (5.5 to 25.88 µg/m³) and NO_x (9 to 33.94 µg/m³). The results of the modeling study indicates that the maximum increase of GLC for the proposed project is 1.72 µg/m³ with respect to the PM₁₀.
12. Ground water quality has been monitored in 5 locations in the study area and analyzed. pH: 7.22 to 7.72, Total Hardness: 236 to 256 mg/l, Chlorides: 6.87 to 15.39 mg/l, Fluoride: 1.12 to 1.18 mg/l. Heavy metals are within the limits. Surface water samples were analyzed from 2 locations. pH: 7.85 to 8.04; DO: 4.7 to 5.5 mg/l and BOD: 1 mg/l. COD 4 mg/l.
13. Noise levels are in the range of 48.51 to 62.29 dB(A) for day time and 39.44 to 52.28 dB(A) for night time.

14. No R&R is involved. It has been envisaged that no families to be rehabilitated.
15. It has been reported that a total of 47 MTPD of Slag, 15 MTPD of Mill Scale and 2 MTPD of APCD waste will be generated due to the project, out of which mill scale waste will be sold to the market and slag and APCD waste will be send to TSDF site for proper disposal. It has been envisaged that an area of 1.29 ha. will be developed as green belt around the project site to attenuate the noise levels and trap the dust generated due to the project development activities.
16. It has been reported that the Consent to Operate from the Punjab Pollution Control Board was obtained vide Certificate No. CTO/Renewal/LDH1/2018/7051511 dated 28/05/2018 and consent is valid up to 27/11/2018.
17. The Public hearing of the project was held on 29.12.2017 at village Budhewal under the chairmanship of Additional Deputy Commissioner (Gen.), Jagraon, District. Ludhiana for production of 680 MTPA of MS rolled products (round, square, hexagonal sections etc). The issues raised during public hearing are employment, pollution control and traffic. An amount of 45.13 Lakhs (1% of Project cost) has been earmarked for Enterprise Social Commitment based on public hearing issues.
18. The capital cost of the project is Rs. 4513 Lakh Crores and the capital cost for environmental protection measures is proposed as Rs. 300 Lakhs. The annual recurring cost towards the environmental protection measures is proposed as Rs 330 Lakhs. The detailed CSR plan has been provided in the EIA report in its page No. 150 in chapter 8. The employment generation from the proposed project / expansion is 250.
19. Greenbelt will be developed in 1.29 Ha which is about 33% of the total acquired area. A 40m wide greenbelt, consisting of at least 3 tiers around plant boundary will be developed as greenbelt and green cover as per CPCB/MoEF&CC, New Delhi guidelines. Local and native species will be planted with a density of 2500 trees per hectare. Total no. of 3225 saplings will be planted and nurtured in 1.29 hectares in 5 years.
20. The proponent has mentioned that there is no court case or violation under EIA Notification to the project or related activity.
21. EIA Consultant: Shivalik Solid Waste Management Limited. Certificate No. NABET/EIA/1619/RA 0040

Observations of the Committee:

22. The project proponent has submitted the letter from the Punjab State Pollution Control Board vide letter no. RO/LDH-I/3926, dated 30th October, 2018 certifying that the proposed project is outside the critically polluted area. The committee observed issues related to employment to local people; use of fresh water for green belt; need for collection of storm water; planting of local species; no clarity in use of re-heating furnace, etc. The PP has submitted undertaking on these issues during the course of the meeting.

Recommendations of the Committee:

23. The proposal was placed before the 1st REAC meeting held during 26th -28th November 2018. After details deliberations, the committee recommended for environmental clearance for the proposed expansion in total production capacity and augmentation of integrated melting and rolling facility under the provisions of EIA Notification, 2006 subject to following specific and general conditions.
24. The Ministry of Environment, Forest and Climate Change has considered the application based on the recommendations of the Expert Appraisal Committee (Industry-I) and hereby decided to grant Environmental Clearance for the proposal **Expansion of Total Production Capacity and augmentation of integrated melting and rolling facility located at Budhewal road, Tehsil & Dist.-Ludhiana, State-Punjab by M/s Aarti Impex** under the provision of EIA Notification dated 14th September, 2006, as amended, subject to strict compliance of the following Specific and General conditions:

A. Specific Conditions:

- I. The PP should lay down the Environmental Policy which is approved by Boarder of Directors /Managing Partners. The Environment Policy should prescribe for standard operating process/procedures to bring into focus any infringement/deviation/violation of environmental/forest norms/conditions.
- II. The PP shall provide employment to 150 local people as per the commitments of PH.
- III. No waste water shall be discharged out side the premises
- IV. The storm water from the surround premises shall be collected and utilized as a part of rain water.
- V. No Re-heating furnace shall be used.

B. General Conditions:

I. Statutory compliance:

- i. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board.
- ii. The project proponent shall obtain the necessary permission from the Central Ground Water Authority, in case of drawl of ground water / from the competent authority concerned in case of drawl of surface water required for the project.
- iii. The project proponent shall obtain authorization under the Hazardous and other Waste Management Rules, 2016 as amended from time to time.

II. Air quality monitoring and preservation

- i. The project proponent shall install 24x7 continuous emission monitoring system at process stacks to monitor stack emission with respect to standards prescribed in Environment (Protection) Rules 1986 vide G.S.R 277 (E) dated 31st March 2012 as amended from time to time and connected to SPCB and CPCB online servers and calibrate these system from time to time according to equipment supplier specification through labs recognised under Environment (Protection) Act, 1986 or NABL accredited laboratories.
- ii. The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through laboratories recognised under Environment (Protection) Act, 1986 or NABL accredited laboratories.
- iii. The project proponent shall install system carryout manual Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5 in reference to PM emission, and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the plant area (at least at four locations one within and three outside the plant area at an angle of 120° each), covering upwind and downwind directions.
- iv. The project proponent shall submit monthly summary report of continuous stack emission alongwith results of manual stack monitoring and manual monitoring of air quality / fugitive emissions to Regional Office of MoEF&CC, Zonal office of CPCB and Regional Office of SPCB along with six-monthly monitoring report.
- v. Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources.
- vi. The project proponent shall provide leakage detection and mechanised bag cleaning facilities for better maintenance of bags.
- vii. Sufficient number of mobile or stationery vacuum cleaners shall be provided to clean plant roads, shop floors, roofs, regularly.
- viii. Recycle and reuse iron ore fines, coal and coke fines, lime fines and such other fines collected in the pollution control devices and vacuum cleaning devices in the process after briquetting/ agglomeration.
- ix. The project proponent shall use leak proof trucks/dumpers carrying coal and other raw materials and cover them with tarpaulin.
- x. The project proponent shall provide covered sheds for raw materials like scrap and sponge iron, lump ore, coke, coal, etc.
- xi. The project proponent shall provide primary and secondary fume extraction system at all melting furnaces.
- xii. Design the ventilation system for adequate air changes as per ACGIH document for all tunnels, motor houses, Oil Cellars.

III. Water quality monitoring and preservation

- i. The project proponent shall install 24x7 effluent monitoring system with respect to standards prescribed in Environment (Protection) Rules 1986 vide G.S.R 277 (E) dated 31st March 2012 as amended from time to time and connected to SPCB and CPCB online servers and calibrate these systems from time to time according to equipment supplier specification through labs recognised under Environment (Protection) Act, 1986 or NABL accredited laboratories.
- ii. The project proponent shall monitor regularly ground water quality at least twice a year (pre and post monsoon) at sufficient numbers of piezometers/sampling wells in the plant and adjacent areas through labs recognised under Environment (Protection) Act, 1986 and NABL accredited laboratories.
- iii. The project proponent shall submit monthly summary report of continuous effluent monitoring and results of manual effluent testing and manual monitoring of ground water quality to Regional Office of MoEF&CC, Zonal office of CPCB and Regional Office of SPCB along with six-monthly monitoring report.
- iv. Adhere to 'Zero Liquid Discharge'.
- v. Sewage Treatment Plant shall be provided for treatment of domestic wastewater to meet the prescribed standards.
- vi. The project proponent shall provide the ETP for effluents of rolling mills to meet the standards prescribed in G.S.R 277 (E) 31st March 2012 (applicable to IF/EAF) as amended from time to time.
- vii. Garland drains and collection pits shall be provided for each stock pile to arrest the run-off in the event of heavy rains and to check the water pollution due to surface run off
- viii. The project proponent shall practice rainwater harvesting to maximum possible extent.
- ix. The project proponent shall make efforts to minimise water consumption in the IF plant complex by segregation of used water, practicing cascade use and by recycling treated water.

IV. Noise monitoring and prevention

- i. Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
- i. The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time.

V. Energy Conservation measures

- ii. The project proponent shall provide waste heat recovery system (pre-heating of combustion air) at the flue gases of reheating furnaces.
- iii. Practice hot charging of slabs and billets/blooms as far as possible.
- iv. Ensure installation of regenerative type burners on all reheating furnaces.
- v. Provide solar power generation on roof tops of buildings, for solar light system for all common areas, street lights, parking around project area and maintain the same regularly.
- vi. Provide the project proponent for LED lights in their offices and residential areas.

VI. Waste management

- i. Used refractories shall be recycled as far as possible.
- ii. Oily scum and metallic sludge recovered from rolling mills ETP shall be mixed, dried, and briquetted and reused melting Furnaces
- iii. 100% utilization of fly ash shall be ensured. All the fly ash shall be provided to cement and brick manufacturers for further utilization and Memorandum of Understanding in this regard shall be submitted to the Ministry's Regional Office.
- iv. The waste oil, grease and other hazardous waste shall be disposed of as per the Hazardous & Other waste (Management & Transboundary Movement) Rules, 2016.

VII. Green Belt

- i. Green belt shall be developed in an area equal to 33% of the plant area with a native tree species in accordance with CPCB guidelines. The greenbelt shall inter alia cover the entire periphery of the plant
- ii. The project proponent shall prepare GHG emissions inventory for the plant and shall submit the programme for reduction of the same including carbon sequestration including plantation.

VIII. Public hearing and Human health issues

- i. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
- ii. The project proponent shall carry out heat stress analysis for the workmen who work in high temperature work zone and provide Personal Protection Equipment (PPE) as per the norms of Factory Act.
- iii. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

- iv. Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.

IX. Corporate Environment Responsibility

- i. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility.
- ii. The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholder's / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
- iii. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.
- iv. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.
- v. Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.
- vi. All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the plants shall be implemented.

X. Miscellaneous

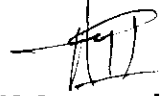

- i. The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it in at least two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.
- ii. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
- iii. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.

- iv. The project proponent shall monitor the criteria pollutants level namely; PM₁₀, SO₂, NO_x (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the projects and display the same at a convenient location for disclosure to the public and put on the website of the company.
- v. The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
- vi. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
- vii. The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
 - i. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
 - ii. The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.
- viii. No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC).
- ix. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- x. The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- xi. The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
- xii. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
- xiii. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their

amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.

- xiv. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

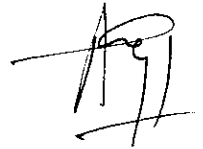

This issues with the approval of Competent Authority.
